About DSCHOOL WORLD OF LEARNING

WHY dSCHOOL?

The program ensures that high-quality academic assessments, accountability systems, teacher preparation & training, curriculum, & instructional materials aligned with challenging State academic standards so students, teachers, parents, and administrators can measure progress against common expectation for student academic achievement.

CLOSING THE ACHIEVEMENT GAP

The learning system uses state-of-the-art technology to assist in closing the achievement gap between high- and low-performing children.

Individualization- Each student is unique and the personalized learning system tracks and opens new lands and challenges according to each student's progress. The targeted learning focuses on what the student needs to know & not focus on areas already mastered.

Motivation - encourages all students to engage and encourage students in learning. This program was designed with motivation as a core element of education. The immersive 3-D play makes students feel like they are inside a world of adventure & learning. Additionally, students are motivated to keep learning by earning gems & badges. There are many motivational incentives in addition to the adventures, including, for example:

- *an ever-changing world that transform with the seasons using a real-time calendar, and*
- *the ability for students to make the world their own with photos, artwork, and more.*

IMPROVING AND STRENGTHENING ACCOUNTABILITY AND TEACHING

Improving and Strengthening Accountability and Teaching - dschool World of Learning follow basic educational pedagogy and should complement state assessment systems. In addition, the program reinforces accountability & teaching at the local level. The Classroom Management System helps teachers to organize their classroom by viewing the progress of individual students or the entire class.

PROMOTING SCHOOLWIDE REFORM/USING SCIENCE-BASED INSTRUCTION

Promoting school wide reform and ensuring the access of children to effective, scientifically-based instructional strategies and challenging academic content

All of our solutions begin with research and fact finding from the experts in the field. The program is based on the latest scientific research regarding how children learn and how technology can be used to enhance and support that experience. By using research, professional writers, and beta testing, our partner creates products that provide supplemental support for early literacy and help ensure that teachers and students receive positive and rewarding results.

PARENTAL INVOLVEMENT

Affording parents substantial and meaningful opportunities to participate in the education of their children.

Trusted by over 40 million parents, the JumpStart brand has been a leader in the educational software market for over 23 years.

Activities encourage parent-child interaction. The lively adventures encourage children to talk about their play and reinforce their learning. The parent is able to log in at the parent/teacher area to monitor progress

Meet the jumpstart teachers....

A frog who first appeared in jumpstart 2nd Grade, CJ teaches using naturalistic intelligence where he uses science and nature related examples and solutions & is also good at observing.

ELEANORE

An Elephant who first appeared in jumpstart preschool whose tips are language arts and reading related. She teaches using linguistic intelligence.

PIERRIE

A Polar Bear who first appeared in jumpstart preschool, Pierrie uses music, songs and sounds in his tips. He teaches using musical intelligence

HOPSOLOT

A rabbit who first appeared in jumpstart kindergarten. His tips seem to be more straight forward than other characters' tips. He teaches using logical-mathematical intelligence, where numbers, logic, & problem solving are taught

FRANKIE

A dog who first appeared in jumpstart. although he's called 'the team leader', the tips he gives have little or nothing to do with leadership. He teaches using interpersonal intelligence, such that he uses people and real-life situations as examples

KISHA

A cat who first appeared in jumpstart preschool, Kisha uses pictures to teach in the program, if Kisha is chosen as the student's learning style, it will say she teaches using visual-spatial intelligence

JumpStart Preschool

Ages 2-4

This year, teach your preschoolers that learning can be an adventure! with JumpStart World® of Learning:

Preschool and Kindergarten invites each student to become Ultimate Jumpscout Leader. As students explore the magical, musical worlds & master the educational games, new areas, adventures and unlock lessons.

This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class' progress easily.

TEACHES OVER 200 SKILLS FOR PRESCHOOL & KINDERGARTEN INCLUDING:

Math:

- Quantities
- Sorting
- Shapes
- Graphs
- Counting
- Fractions
- Comparisons
- Measurements
- Number Recognition

Reading:

- Recognition
- Sounds
- Letters
- Phonics
- Rhyming
- Vocabulary
- Story Sequencing
- Sentence Building
- Visual Discrimination
- Listening Comprehension

Critical Thinking:

- Following Directions
- Problem Solving
- Patterns
- Sorting
- Using a Calendar
- Telling Time
- Spatial Awareness
- Visual Discrimination
- Directions
- Using a Calendar
- Solving Puzzles

Social Skills:

- Community Awareness
- Healthy Food Choices
- Exercises
- Friendship
- Teamwork

OTHER SCOUT BADGES VIRTUES INCLUDE:

1. Dependability

2. Bravery

3. Cheerfulness

4. Politeness

5. Adventurous

6. Fairness

7. Sharing

8. Environment

9. Helpfulness

10. Teamwork

11. Friendship

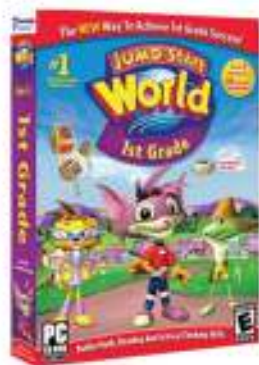

12. Ultimate Scout

JumpStart

World 1st Grade

Ages 6-8

This year, teach your 1st graders that learning can be an adventure! with JumpStart World® of Learning:

1st Grade invites each student to rescue JumpStart Town from trouble – a challenge that requires mastery of more than 280 essential 1st grade skills based on national and state standards.

As students progress through the educational games and missions in JumpStart Town, new lands, adventures and lessons unlock. This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class' progress easily

TEACHES OVER 280 SKILLS FOR 1ST GRADE INCLUDING:

Math:

- Comparisons
- Measurements
- Graphs
- Place Value
- Addition
- Subtraction
- Value of Money
- Fractions

Reading:

- Story Sequencing
- Rhyming
- Sight Words
- Punctuation
- Contractions
- Parts of Speech
- Plurals
- Synonyms
- Antonyms

Critical Thinking:

- Spatial Awareness
- Visual Discrimination
- Directions
- Using a Calendar
- Solving Puzzles
- Telling Time
- Patterns

Social Skills:

- Friendship
- Teamwork
- Responsibility

OTHER LEADERSHIP KEYS VIRTUES INCLUDE:

1. Knowledge

2. Dedication

3. Friendship

4. Inspiration

5. Community

6. Sharing

7. Caring

8. Truth

9. Exploring

10. Motivation

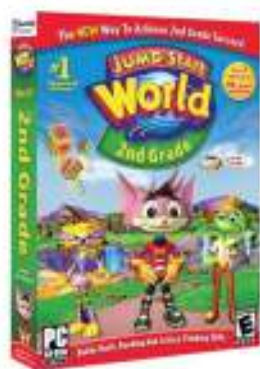

11. Thoughtfulness

12. Key to the town

JumpStart World 2nd Grade

Ages 8-12

This year, teach your 2nd graders that learning can be an adventure! JumpStart World® of Learning:

2nd Grade invites each student to solve the mystery of the vanishing-color – a challenge that requires mastery of more than 300 essential 2nd grade skills based on national and state standards.

As students progress through the educational games and missions in JumpStart Town, new lands, adventures and lessons unlock. This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class progress easily.

TEACHES OVER 300 SKILLS FOR 2ND GRADE INCLUDING:

Math:

- Comparisons
- Place Value
- Addition
- Subtraction
- Multiplication
- Division
- Basic Equations
- Basic Geometry

Reading:

- Compound Words
- Context Clues
- Parts of Speech
- Main Idea
- Irregular Vowels
- Punctuation
- Rhyming

Critical Thinking:

- Spatial Awareness
- Visual Discrimination

- Solving Puzzles
- Telling Time
- Patterns

Social Skills:

- Friendship
- Teamwork
- Responsibility

OTHER HERO SHIELD VIRTUES INCLUDE:

1. Training

2. Challenge

3. Strength

4. Encourage

5. Nature

6. Culture

7. Wisdom

8. Loyalty

9. Responsibility

10. Courage

11. Vision

12. True Hero

More programs in Reading, Spelling & Mathematics for Primary & High School level.

JUMPSTART WORLD KINDERGARTEN

JumpStart World Kindergarten invites each student to become the Ultimate Jump Scout Leader – a challenge that requires mastery of more than 200 essential Kindergarten skills based on national and state standards.

JUMPSTART ADVANCED PROGRAMS

1. JUMPSTART ADVANCED TODDLERS

An exciting computer discover program designed especially for the curious young mind, Come to JumpStart for fun toddler activities that you can use to turn play time into learning time and bonding time with your young ones.

2. JUMPSTART ADVANCED PRESCHOOL

You can plant the seed for a lifelong love of learning in your preschooler with interesting preschool activities. Simple, easy & fun activities can set the foundation for better learning & development. Both informative & productive, fun activities such as science activities, art activities & math activities will build your preschoolers' confidence & unlock their imaginations.

3. JUMPSTART ADVANCED KINDERGARTEN

Engage your little ones with easy kindergarten activities! A great resource for all parents & teachers, these activities for kindergarteners will hold their attention and satisfy their curiosity. There are a variety of activities available - from fun math activities to reading activities, science activities, and a whole range of other printable ones!

4. JUMPSTART ADVANCED 1ST GRADE

In Jumpstart Advanced Preschool, learners participate in the JumpStartville Scooter Tournament. The player can collect power-ups to add to any of the seven main characters' scooters by playing activities around JumpStartville. Once the player has gathered enough power-ups, they can move to the arena to compete against the other racers.

5. JUMPSTART ADVANCED 2ND GRADE

In the Jumpstart Advanced 2nd Grade, the dastardly villain Dr. O is creating problems for JumpStartville. Hopsalot has the task of creating inventions to reverse the damage of Dr. O's schemes. CJ and Edison need to collect gadget pieces for Hopsalot so he can build the inventions. CJ and Edison have to travel to different

locations around the world and contact agents that can help. When all the gadget pieces are collected, CJ and Edison can head to Hopsalot's Invention Lab. There, they must assemble the gadget pieces in a way that will activate the gadget.

7. JUMPSTART ADVANCED 4TH GRADE

JumpStart Adventures 4th Grade: Sapphire Falls is a hairy, bipedal creature invades an old, abandoned mine in the town of Sapphire Falls. Scaring away tourists, the creature succeeds in stealing a mysterious treasure map that no one has ever been able to read. Two aspiring fourth-grade reporters, Sally Chu and TJ Adams, along with their pint-sized dog Gizmo, travel to the mines to solve the mystery.

6. JUMPSTART ADVANCED 3RD GRADE

JumpStart Adventures 3rd Grade: Mystery Mountain is Set in a retro-futuristic universe, the game concerns Polly Spark, the bratty daughter of the world-famous inventor Professor Spark, and her attempt to alter history so that her inane answers to a history quiz she failed will be correct. To do this, she sends twenty-five reprogrammed robots back in time and, with her father conveniently away on a business trip, she takes over Mystery Mountain, the literal "mountain mansion" where she and her father live. The goal of the game is to help Botley, the robot assigned to keep Polly under control, save the world by retrieving each of the twenty-five robots and bringing them back to the present.

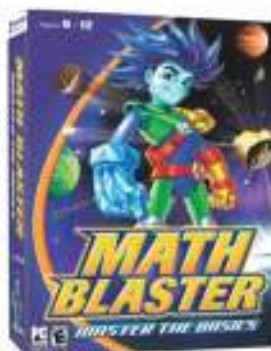

MATH BLASTERS

1. MATH BLASTER 5-7

Six action-packed activities help students master basic math skills and explore key concepts. Through 150 lessons & 1,000 problems presented in five levels of difficulty, students learn to count numbers, tell time, identify money, use systems of measurement, and perform basic operations. Progress reports & printable activities are included.

3. MATH BLASTER 9-12

Develop intermediate math skills in an exciting adventure. Ten activities in an adventure-story context keep students engaged while they develop complex intermediate math skills by completing equations and using integers, fractions, decimals, and percentages. The program presents over 50,000 problems in 10 skill areas with several levels of difficulty, and includes online help and math tips.

2. MATH BLASTER 6-8

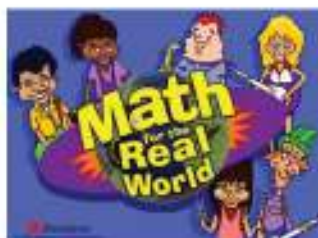

Sharpen math skills with engaging number challenges. Eight absorbing activities with five levels of content introduce addition, subtraction, and sorting of simple & complex number sets. Over 350 lessons and 1,000 problems and puzzles build operations and data skills, while exploration activities build visual & logical thinking skills. Progress reports & printable activities are included.

4. MATH BLASTER PRE-ALGEBRA

Develop graphing & equation skills to solve the mystery. Nine activities focused on decimals, integers, & rational numbers prepare students for algebra as they learn to graph numbers and find solutions on a coordinate grid. Over 4,000-word problems & equation writing exercises help students develop critical thinking skills while they advance through multiple levels in an exciting mystery setting.

5. MATH FOR THE REAL WORLD

Sharpen math skills with engaging number challenges. The player manages a rock band and must secure funds to producing music videos and become successful by managing the budget efficiently. This is achieved by completing objectives like keeping on schedule and ensuring the van does not run out of fuel.

READING BLASTERS

1. READING BLASTER 4-6

Introduce essential pre-reading skills. Progressively challenging activities in phonics, the alphabet, & word knowledge introduce critical pre-reading skills. Eight read-along storybooks and problem-solving challenges develop basic literacy and the thinking skills needed for reading comprehension.

3. READING BLASTER 9-12

Sharpen math skills with engaging number challenges. Eight absorbing activities with five levels of content introduce addition, subtraction, and sorting of simple & complex number sets. Over 350 lessons & 1,000 problems & puzzles build operations & data skills, while exploration activities build visual & logical thinking skills. Progress reports and printable activities are included.

5. SPELLING BLASTER 6-9

Develop superior spelling and reading skills. Engaging phonics-based activities introduce spelling rules and patterns for over 1,700 words. Spell Track™ monitors misspelling trends, and multiple word-attack strategies help students learn to spell with consistency and accuracy. An easy-to-use editor lets you create customized word lists. Printable word searches and crossword puzzles reinforce the learning.

2. READING BLASTER 6-8

The Reading Blaster Series motivates students to master language arts skills in reading, writing, & spelling. The series challenges students to use problem-solving skills in age-appropriate, multi-level reading and writing activities that teach punctuation, creative writing, vocabulary development, proper grammar, and more. Help your students achieve reading and writing proficiency.

4. GRAMMAR FOR THE REAL WORLD

Teach students to write and edit their way to the top! In a Hollywood setting, this program teaches the elements of effective writing—grammar, punctuation, spelling, and well-structured sentences—as students work their way up the career ladder of a movie studio. “Real-world” activities, adjustable difficulty levels, an online grammar guide, and text-to-speech technology support the editing process.

PLANETARIUM

WHAT YOU GET IN A PLANETARIUM

Planetarium, theatre devoted to popular education & entertainment in astronomy & related fields, especially space science. Traditionally constructed with a hemispheric domed ceiling that is used as a screen onto which images of stars, planets, and other celestial objects are projected.

BRING YOUR KIDS TO THE dSCHOOL PARK FOR SOME FUN FILLED ACTIVITES AS WELL AS EDUCATIONAL SESSIONS!

The dschool park is filled with fun excitement & educational activites that will help your kids in their studies.

THE PARK ENTAILS:

TRAINING CENTER

Science Park

dschool Swimming

Educational Colour Balls

A training center - for both kids and adults to learn how to work with the jumpstart, blasters & languages programs

A PLANETARIUM - is a theatre devoted to popular education and entertainment in astronomy & related fields, especially space science, and traditionally constructed with a hemispheric domed ceiling that is used as a screen onto which images of stars, planets, and other celestial objects are projected.

A Swimming pool - which helps to increase the metabolism and helps energize the body and mind keeping your child active and sharp. It is the only exercise that has an effect on the entire body.

Educational balls - that help kids identify colors & make counting easier

JUMPSTART ACADEMY PROGRAMS (MULTIPLATFORM)

1. JUMPSTART ACADEMY PRESCHOOL

Mobile app for preschool

An early learning program that covers letters, numbers, shapes, colors and social-emotional skills. Help your child reach their full learning potential with the award-winning learning games developed by early childhood education experts.

2. JUMPSTART ACADEMY KINDERGARTEN

Mobile App for kindergarten, grade 1 to 3, PP2 to Grade 3.

An interactive learning program that covers essential kindergarten skills such as letter sounds, blending, writing, sight words, counting, and computation. Lessons are created by teachers and early childhood experts to ensure that your child stays engaged as they learn.

3. JUMPSTART ACADEMY MATH

JumpStart Academy Math is an award-winning online individualized math program that provides parents with engaging Kindergarten through 12th grade activities for their children.

4. JUMPSTART ACADEMY CODING

JumpStart Academy Coding has been designed to aid K-12 learners in the 21st century to develop computational thinking skills while broadening essential life skills with the 4 Cs (collaboration, communication, creativity and critical thinking) and problem solving.

LEARN A LANGUAGE *On the Go!*

Learn to Speak English, German and Spanish Deluxe 10

is a fast and effective way to learn english, german or spanish. It has been an all- time best selling language software program that is used by millions of people worldwide. Includes three audio CD's, a printed reference book and audio lessons for your iPod or MP3 player

The learning technique, called Flexible Immersion System, is exclusive to eLanguage's Learn to Speak software, and lets you choose the learning path that matches your individual learning style. Also, instead of simply memorizing words, you will get the grammar and vocabulary skills you'll need to quickly and easily be able to speak French.

The absolute best way to learn a new language is by visiting the country where it is spoken. Learn to Speak's unique learning method uses this fact by placing you into real-world scenarios to make language immersion truly work. Using interactive videos and speech recognition tools, you will be able to interact with native French speakers.

Real-World Scenarios include:

- Taking a taxi
- Checking into a hotel
- Asking for directions
- Speaking with a doctor
- Ordering a meal
- Social events...and much more

Move easily from learning useful words and phrases to exploring scenario-based conversations. Then polish your new skills with advanced speech recognition and analysis tools.

Easy to Use

Learn to Speak French Deluxe lets you spend your time learning the language, NOT the software. You can let the program lead you through the lessons step-by-step or simply choose the lessons and topics that are of interest to you. The easy-to-use interface will get you started right away.

LEARN TO SPEAK FRENCH

Unlike other language software, eLanguage does so much more than just help you memorize words – we want to get you speaking the language as quickly as possible. And for less! Learn a Language on the GoLearn French with beginner, intermediate and advanced lessons, as well as with vocabulary exercises, speech recognition, and fun games. Have conversations with native French speakers in over 40 interactive, real-world scenarios. You can even learn on-the-go: In your car, or on your MP3 player. You will be speaking French in no time!

Proven Techniques to Learn French

The Learn to Speak French software was designed by language experts, who combined language-learning theories with proven classroom practices to develop an ultimate learning environment for any kind of user. The result is a rapid language-learning approach that is used by millions of people around the world.

“Have
conversations
with native
French speakers
in over 40
interactive, real-
world scenarios”

- ✓ Recovery of lost laptops, tablets & smartphones
- ✓ Wipe, lock & encrypt your device
- ✓ Get device location & activity logs
- ✓ Get Real-time location, reports & history

DEVICE TRACKING & PROTECTION ON AUTO-PILOT.

“Knowing where your assets are at any given time is now crucial. Avoid information loss within your remote workforce using Prey’s persistent device tracking & security solution.”

A SINGLE SOLUTION.

TRACKING AND CONTROL

Control Zones to detect early when a device moves in or out of an area, battery-efficient Aware Tracking to find your device, and a hour-by-hour Location History to see where it has been.

DATA PROTECTION

Wipe data and folders remotely on a lost device, retrieve specific documents and salvage pictures, or encrypt your computer at a distance to maintain your privacy while you track it down

ANTI-THEFT TOOLS

Receive evidence reports on lost devices with locations, pictures, screenshots, nearby WiFis, and user data. React with actions like the remote screen-lock, anti-mute alarm, and message.

DEVICE MANAGEMENT

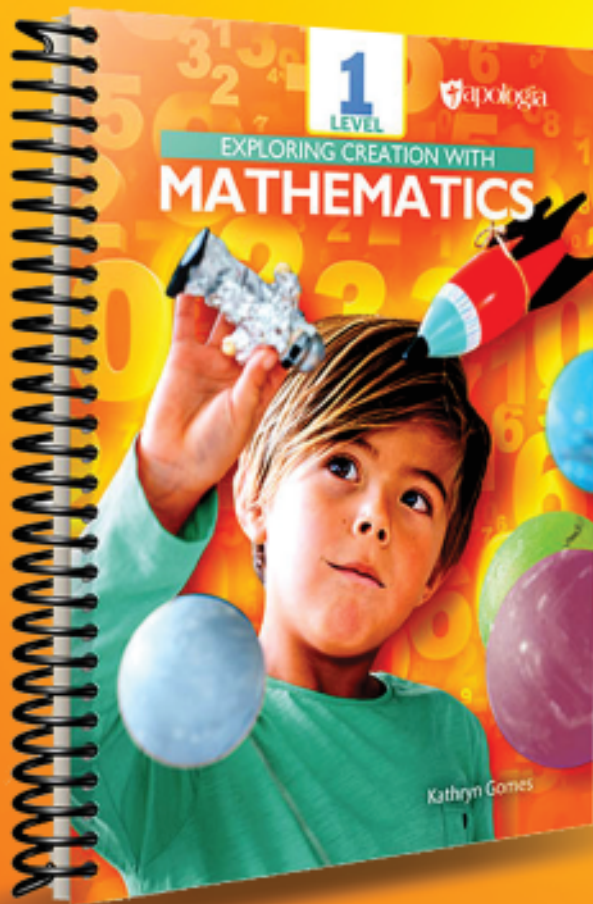

Smoothly manage thousands of devices in the enterprise panel, organize your inventory with labels, perform bulk-tasks with ease, and view your device’s information globally.

MULTI-OS INTEGRATION

Integrate all devices and operating systems under a single platform. Android, Windows, Ubuntu, Chrome OS, iOS, macOS, laptops, tablets, and mobiles. You name it, we support it

EXPLORE

Creation with Maths

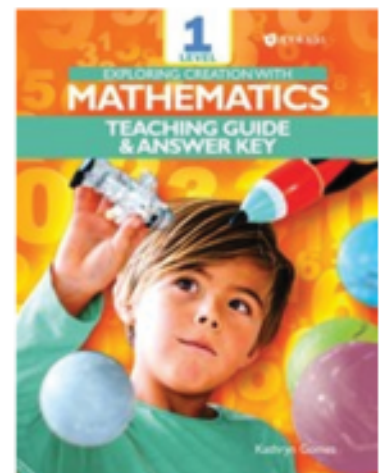

Apologia Math is an engaging homeschool math curriculum that teaches students how to make connections between math and other subjects and to see how math reveals the glory of God in creation.

In Apologia Math Grade 1, students are introduced to addition, subtraction, place value, measurement and data, & geometry. Hands-on activities engage the student at the beginning of each lesson & projects close out each unit, requiring students to apply their new knowledge in a tangible way.

This course features a suggested daily schedule that reflects a systematic progression from one skill to the next to help minimize frustration. Plus, fun & easy-to-use games help ensure students are ready for the next level of math concepts. Options & suggestions for adjusting a lesson if your child is struggling or if your child is advancing quickly through the material are also provided.

THIS TEACHER GUIDE & ANSWER KEY

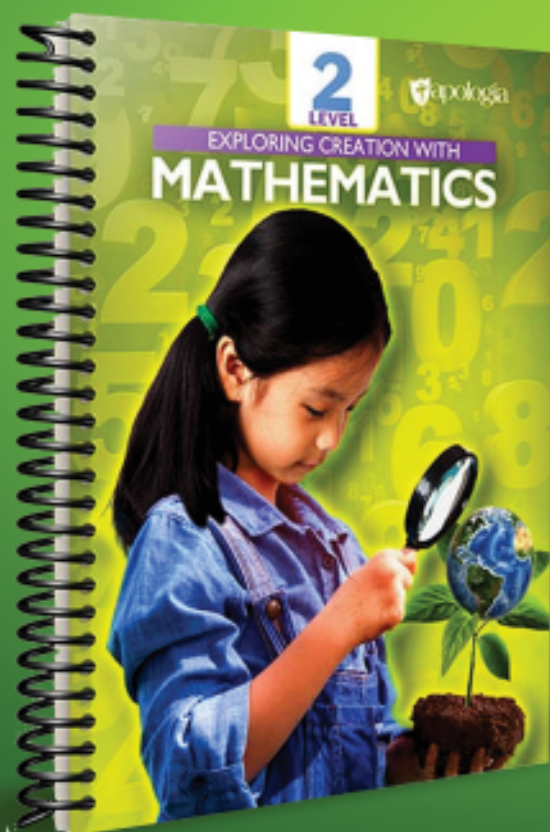

is designed to be used with the Apologia Exploring Creation with Mathematics 1 Student Textbook (sold-separately). It includes supply lists, answers to the problems, teaching tips, and suggestions for extending activities. 191 pages, softcover.

EXPLORE

Creation with Maths

GRADE 2

Students advance to adding and subtracting 3-digit numbers, telling time, manipulating money, and learning more about measurement, data collection, and more detailed geometry, including 3D shapes.

This course features a suggested daily schedule that reflects a systematic progression from one skill to the next to help minimize frustration. Plus, fun and easy-to-use games help ensure students are ready for the next level of math concepts. Options and suggestions for adjusting a lesson if your child is struggling or if your child is advancing quickly through the material are also provided.

THIS TEACHER GUIDE & ANSWER KEY

is designed to be used with the Apologia Exploring Creation with Mathematics 2 Student Textbook (sold-separately). It includes supply lists, answers to the problems, teaching tips, and suggestions for extending activities.
