

# Make Colorful Ice

‘Make Colorful Ice’ is an interesting preschool activity that teaches kids about different colors and how they mix with another to form a new color. This color activity involves extensive use of food colors which might turn cumbersome – wear aprons while doing this free classroom activity.

## You will need:

- Paper cups
- Food colors in primary colors
- Droppers
- Ice trays
- Freezer

## Directions:

- Fill the paper cups till half with water.
- Mix a different food color in each cup.
- Allow kids to take different colors with the droppers, from the cups, and drop them on the pockets in the ice tray. Encourage them to mix the colors.
- They’ll be delighted to see primary colors in the color activity mixing with each other to form secondary colors!
